

# BUILDING HEALTHY SOILS FOR HEALTHY COMMUNITIES - PART I

February 27 and 28, 2024

Cultural Center Main Room,  
College of Menominee Nation

REGISTER at  
<http://tinyurl.com/3f45nwja>

## TENTATIVE AGENDA

*Discussion and hands-on activities covering..*

February 27 - 9:30 am to 4:00 pm

What are soils and what are they made of?

How are soils different?

What does a healthy soil look like?

What does a healthy soil do?

What creatures live in the soil?

Why is soil biology so important?

February 28 - 9:00 am to 3:00 pm

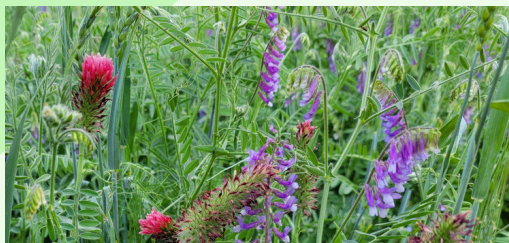

How do I work with the soil biology?

What practices create healthier soils?

How do I test a soil's nutrient levels?

What does my soil test tell me?

How can I work with the soil biology to increase  
soil nutrient levels?
