

Wisconsin Tribal Conservation Advisory Council Meeting Minutes
Tuesday, May 19, 2009
Bad River

Meeting called to order at 9:20 am by Jonathan Pyatskowit.

1. Roll Call

Present: Bad River (Pam Roberts), FCPC (Nate Guldan), LCO (Brett McConnell), Menominee (Jonathan Pyatskowit), Red Cliff (Tracey Ledder), Stockbridge-Munsee (Luke Hennigan)

Others Present: Jerry Thompson (Earth Team Volunteer), Sherrie Zenk-Reed (NRCS), Tony Bush (NRCS), Greg Yackle (NRCS), Tom Fredrickson (NRCS), Mike Koehler (NRCS), JoAnn Cruse (APHIS), Keith Sengbusch (NRCS), Julie Malvitz (NRCS), Tom Cogger (NRCS), Jim Thannum (GLIFWC), Pat Leavenworth (NRCS), Dr. Tim Deveau (APHIS)

2. Approval of Minutes

MOTION: Motion to approve April 9, 2009 meeting minutes. Motion by Stockbridge-Munsee, seconded by Red Cliff. All ayes, zero opposed, motion carried.

3. NRCS Update

Pat Leavenworth gave the update for NRCS. They are still in the process of the new administration coming in. The new deputy secretary is Kathleen Merrigan. She was a professor at Tufts University – background is in importance of agriculture and local eating. She also has an extensive background in organic food production. Homer Wilkes was selected as the Undersecretary for Natural Resources. He was the state conservationist for Mississippi and is the first undersecretary not to come from a forestry background. Pearly Reed, who was once NRCS Chief, is returning to administration in USDA. The new NRCS Chief is Dave White – had a video conference recently where he set forward his initiatives. Pat Leavenworth is looking forward to working with him. In Wisconsin, NRCS is moving to fill critical vacancies; they are still receiving funds and are getting stimulus dollars to acquire flood plain easements. They submitted \$20 million in requests. NRCS is also looking to secure help for the tribes with special administrative agreements.

She indicated that the AIANEA conference is a good place to showcase ourselves and she is very proud of what we have done. The progress we have made is quite remarkable in tribal participation since the formation of WTCAC. Her peers need to see what we are doing here in Wisconsin. She is looking forward to showing off what we have accomplished.

Secretary Vilsack put out some priorities – biofuels (NRCS will be supporting), climate change, clean air/clean water, and quality wildlife habitat. He is also looking to quickly implement the 2008 Farm Bill.

Great Lakes Restoration Initiative - \$475 million for this directive through US EPA. NRCS is receiving about \$33 million in these funds to supplement the existing programs – this will be in 2010.

They have come forth with a change in the definition for socially disadvantaged. Membership in a socially disadvantaged entity needs to be held at 50% by socially disadvantaged individuals.

Pat handed out a few of the finished brochures; we will get the rest on June 2nd in Madison. They look awesome!

4. EQIP/WHIP Projects

Tony handed out EQIP project details (attached).

Tribal EQIP Projects:

Menominee: Forest Stand Improvement (Corrective Pruning and Crop Tree Pruning) and Tree/Shrub Establishment. The total funding request was \$82,327.56.

Lac du Flambeau: Fence around strawberry farm and a crop tree release. The total funding request was \$45,778.54.

FCPC: 2 access roads and a stream crossing. The total funding request was \$83,974.70.

Mole Lake: Pest Management on Rice Lake for aquatic invasive species and Brush Management. The total funding request was \$94,800.

LCO: Five crop tree release projects and 1 pruning project. The total funding request was \$31,860.

Oneida: Three tree establishments, closure of waste impoundment, stream crossing, and field border for a total of 6 projects. The total funding request was \$43,444.32.

Ho-Chunk: Forest trails and landings, forest stand improvement, pasture and hayland planting, streambank protection, brush management, tree establishment, and 2 access roads. The total funding request was \$54,442.93.

The total EQIP funding request was \$436,628.05 which means \$3,371.95 will be returned.

MOTION: Motion to approve all 2010 EQIP projects for a total of \$436,628.95. Motion by Red Cliff, seconded by Stockbridge-Munsee. All ayes, zero opposed, motion carried

Tom Cogger handed out WHIP project details (attached).

LCO: 8 acres of wild rice reseeding. The total funding request was \$5,880.

Lac du Flambeau: Firebreak of 23,000 feet around Powell Marsh Area, wood duck nesting boxes in same area, and a 6 acre prescribed burn on a little island. The total funding request was \$2,018.52.

Oneida: Logjams on Lancaster Brook (250 feet) to improve coldwater habitat for trout and wood turtles. The total funding request was \$1,162.50.

St. Croix: 31 wood duck boxes. The total funding request was \$1,116.

Stockbridge-Munsee: Prescribed burn on 59 acre. The total funding request was \$5,900.

The total WHIP funding request was \$16,077.02 which means \$38,922.98 will be returned.

MOTION: Motion to approve all 2010 WHIP projects for a total of \$16,077.02. Motion by FCPC, seconded by LCO. All ayes, zero opposed, motion carried

5. APHIS Update

Dr. Tim Deveau gave an update. APHIS is currently working on an agreement with GLIFWC for VHS testing through 2009. They are also working on a proposal to increase swine monitoring for H1N1 influenza. A swine herd in Canada was found to be positive and it is thought that a worker gave the pigs H1N1. There are a very high percentage of Hispanic workers on farms in Wisconsin that have ties to Mexico and may have come in contact with someone that has been to Mexico recently. They are surveying swine in slaughter plants and then if H1N1 is found they will trace it back to the farm of origin.

They are trying to start up the Ag-Discovery program here in Wisconsin. It is a program geared to increase the interest of youth (age 14 -17) in agriculture.

Wildlife services has sampled for avian influenza. In 2008, 1600 birds sampled and nothing was found.

An equine disease, contagious equine metritis, was found in the past year in a stallion. Since the discovery, over 45 states have been involved and 500 plus horses have been exposed. There have been 7 positives in Wisconsin. Currently there are 170 horses under quarantine in Wisconsin. No Tribal horses have been involved. A variety of breeds are affected and the disease is spread venereally and mechanically. They are looking at any horse that was at the breeding facility 7 days before or after the sick stallion was there. This disease does not show up readily in the animal, it does not cause death. The biggest concern is that it puts up trade barriers to breed these horses in other countries. The disease does not affect other species and is not a public health concern. There is some reproductive loss and abortion.

Last year they held dog and cat vaccination clinics on Reservations throughout the state and they were very successful. The Tribe purchases the vaccine and they donate their time for vaccination. The vaccinations are for rabies and parvo. If you are interested in setting up a vaccination clinic, please contact Dr. Deveau at (715) 536-4534 or at timothy.p.deveau@aphis.usda.gov.

JoAnn Cruse brought the EAB traps. This is national EAB awareness week. There was a 2nd EAB find in Victory, Wisconsin just south of La Crosse. They figure there are small scattered infestations in Wisconsin, but they have not yet found anymore. Some of the trees at the La Crosse site died in 2007 already. In Victory all ash trees will be dead in the next couple of years, just across the Mississippi River from Iowa. The railroad sprayed the right away which is a stressor for ash trees which act as great host trees for EAB. It is probably following the railroad. Also, many trees have gone down river in floods and storms over the last couple of years so it may have been spread downstream as well. Vernon and Crawford Counties were both quarantined and Houston County, Minnesota was also quarantined (just across the river). There are Ho-Chunk lands in Houston County, Minnesota. 80% of the wood harvested in those counties leaves the counties. 8000 traps going up in Wisconsin this year. Also, late last week EAB was found in St. Paul, Minnesota by a tree service company and there has also been a find in central Pennsylvania that was called in by a homeowner. Wisconsin is included in biological assessment for biological control of EAB.

Gypsy moth quarantine enlarged this year to include Monroe County, Iron County, and the Apostle Islands.

APHIS has biocontrol available for spotted knapweed and can get Tribes the insects so they do not have to buy them.

6. Technical Recommendations

We need to get all recommendations to Pat Leavenworth a week before the public meeting on June 2. Please email everything to Nate by noon on Tuesday, May 26 and he will send it to Pat.

The following is list of technical recommendations we would like to make and the person responsible for pulling the information together.

- 1) Beaver dam obstruction removal – Brett McConnell
- 2) Logging road reseed project – Brett McConnell
- 3) Shoreline heavy use protection – Nate Guldan
- 4) Pest Management for forest woodlands (gypsy moth) – Greg Blackdeer
- 5) Get prescribed burning on the EQIP docket as pest management – Greg Blackdeer
- 6) Water control structure and dike – Bob Frank
- 7) Pipeline Standard Scenario (516) – Luke Hennigan (Irrigation Subcommittee)
- 8) Microirrigation Standard (441) – Luke Hennigan (Irrigation Subcommittee)
- 9) Well Standard (642) – Luke Hennigan (Irrigation Subcommittee)

- 10) Irrigation System Sprinkler (442) – Luke Hennigan (Irrigation Subcommittee)
- 11) High Pressure Underground Plastic Pipe (430DD) – Luke Hennigan (Irrigation Subcommittee)
- 12) Low Pressure Underground Plastic Pipe (430EE) – Luke Hennigan (Irrigation Subcommittee)
- 13) Pumping Plant (533) – Luke Hennigan (Irrigation Subcommittee)
- 14) Pest Management (595) – Tony Kuchma

The following general recommendations will also be made

- 1) Recommend that fish passage be included in EQIP as well as WHIP
- 2) Recommend that there be 2 separate EQIP and WHIP dockets, one for the state and one for Tribes

7. AIANEA Conference

We still need an invoice to get the money it them for our conference sponsorship. Jerry handed out the latest agenda (attached). If anyone is attending training sessions, please get the information to Jerry so he can set up registration. Everyone (WTCAC members included) need to register with Jerry by the end of June. Our sessions are currently scheduled from 11am – 12am on Tuesday, July 14 and 8am – 8:45am on Wednesday, July 15. Jerry is pulling together the PowerPoint for us. The WTCAC brochure will be included in all registration packets. If the Tribes want to put anything in the registration packets, send it to Tony Bush.

8. Interns

Students are starting work on June 8. Jerry gave a WTCAC brochure out to them during orientation. They are required to attend the WTCAC meetings and introduce themselves at the first one they come to. They are also required to give updates at each WTCAC meeting on what they are working on and learning and they will be attending the AIANEA conference.

9. Congressional Testimony

Jonathan and Jim Thannum put together congressional testimony seeking an appropriation out of the FY2010 budget. The House and Senate are on recess over Memorial Day. June 8 they will be moving their appropriation bills through. We need to have Tribal leadership send letters to Senator Kohl and Representatives (Obey, Kagen, etc.) to show support for the WTCAC request. The letter should have a copy of the testimony and should indicate that the Tribe supports the request and indicates what WTCAC has done for the Tribal community.

Also, it was suggested that it would be a good idea to send a letter to Pearly Reed with the brochure to say thank you for helping get WTCAC started and emphasize our success (Jonathan will do this). This provides a national model that he may be able to use. Pat Leavenworth will give us a list of administration officials to send letter, brochure, and introductions.

10. Financial Report

Brett handed out travel checks that cover Jan – April 2. He paid for the brochures (\$3,125) and will fill out an SF-270 for them. He is still waiting on an invoice for the AIANEA conference. Brett will fill out an SF-270 for the \$10,000 for AIANEA.

11. Small Projects

GLIFWC sent in a CD with everything listed in there work plan that was to be completed by the end of the last quarter and they are requesting their quarterly payment.

MOTION: Motion to approve quarterly payment to GLIFWC for their small project "GLIFWC Invasive Plant Risk Assessment/Prioritization Model" for \$7,270.25. Motion by Stockbridge-Munsee, seconded by LCO. All ayes, zero opposed, motion carried

Jonathan sent a certified letter to the Bad River Tribal Chairman requesting some action on their outstanding small project. He got the tag back saying it was received, however he has not heard from the Tribe.

The Ho-Chunk project, Cultural Resources Site Protection Practice Demonstration, was conditionally approved at the last meeting assuming the revised proposal would be acceptable to NRCS. Julie Malvitz indicated that the new proposal was acceptable.

MOTION: Motion to approve Ho-Chunk's Cultural Resources Site Protection Practice Demonstration Project for \$8,400. Motion by LCO, seconded by Red Cliff. All ayes, zero opposed, motion carried

12. Task List

Nate handed out the small project tracking sheet that he developed (attached). 26 small projects have been funded.

It was realized that the task list needed to be updated as many things on it were already completed. Nate will update it and send out to everyone to go through and make comments.

MOTION: Motion to adjourn. Motion by Red Cliff seconded by Stockbridge-Munsee. All ayes, zero opposed motion carried. Meeting adjourned at 2:51 pm.
